

Weigh It, Work It Out

Put the measurements together. Find each total.

1 The weighing station

5 kg

5 kg

$$\begin{array}{c} \text{5} \\ \text{kg} \end{array} + \begin{array}{c} \text{5} \\ \text{kg} \end{array}$$

$$= \boxed{} \text{ kg}$$

2 Pack the weights

5 kg

2 kg

$$\begin{array}{c} \text{5} \\ \text{kg} \end{array} + \begin{array}{c} \text{2} \\ \text{kg} \end{array}$$

$$= \boxed{} \text{ kg}$$

3 Weight challenge

Sketch both amounts here.

$$\begin{array}{c} \text{9} \\ \text{kg} \end{array} + \begin{array}{c} \text{3} \\ \text{kg} \end{array}$$

$$= \boxed{} \text{ kg}$$

4 The weighing station

7 kg

1 kg

$$\begin{array}{c} \text{7} \\ \text{kg} \end{array} + \begin{array}{c} \text{1} \\ \text{kg} \end{array}$$

$$= \boxed{} \text{ kg}$$
