

Shape Safari Tracing Fun for Little Math Explorers

Trace the large shapes first, then practice drawing them on the lines below to improve pencil control.

Three large boxes for tracing. The first box is purple and contains a dashed semi-circle. A cartoon taco character is holding a pencil next to it. The second box is orange and contains a dashed right-angled triangle. A cartoon avocado character is holding a pencil next to it. The third box is red and contains a dashed inverted triangle.

A row of four dashed semi-circles on a set of three horizontal lines for tracing practice.

A row of three dashed semi-circles on a set of three horizontal lines for tracing practice.

A row of seven dashed right-angled triangles on a set of three horizontal lines for tracing practice.

A row of six dashed right-angled triangles on a set of three horizontal lines for tracing practice.

A row of six dashed inverted triangles on a set of three horizontal lines for tracing practice.

A row of five dashed inverted triangles on a set of three horizontal lines for tracing practice.
